### **DETAILED ACTION**

(1). Applicants' Amendments and Remarks filed on March 17, 2006 have been received and acknowledged.

However, the rejections of claims 1-13 in the prior Office Action dated December 15, 2005 is sustained.

#### ***Claim Rejections - 35 USC § 102/103***

(2). The text of those Section Title 35 U. S. Code not included in this Office Action can be found in the prior Office Action dated December 15, 2005.

(3). **Claims 1-13** are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Stengel et al (US006458885B1) for the same rationale recited in the prior Office Action dated December 15, 2005.

#### ***Response to Arguments***

Applicant's arguments filed on March 17, 2006 have been fully considered but they are not persuasive.

Applicants' point out that the prior art reference - Stengel et al do not have a hydroxyl-functional (meth)acrylate copolymer reacted with at least one lactone compound – lactone-modified acrylic copolymers. Since instant claim 1 is a coating composition claim, even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior art product was made by a different process. *In re Thorpe*, 777 F.2d 695,698, 277 USPQ 964, 966 (Fed. Cir. 1985). Since Stengel's et al (US006458885B1) coating composition is substantially identical to that of the applicants', applicants' process is not given patentable weight in this claim unless the applicants show that unexpected results are owing to the said process.

#### ***Conclusion***

Art Unit: 1713

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
